Recommended Audience

CFO, finance executive, business owners, and IT leaders interested in reviewing and evaluating Dynamics 365 Business Central's fit for their organization's specific needs.

Is Dynamics 365 Business Central right for your business? Are you planning to migrate from your basic accounting software to a more robust ERP like Business Central but don't know where to start?

Let us help you take out the guesswork in determining whether Business Central will fit your business needs. Sign up for your commitment-free **4-hour Business Central Assessment**. It's our no-risk, commitment-free service designed to help organizations like yours make an informed decision on choosing the right ERP for your business. Get our experts to help you assess your readiness and provide a high-level plan for your migration to Business Central.

Agenda

- 1) Discuss your internal processes, use cases, and requirements.
- 2) Identify key gaps or major pain points in your existing system and processes.
- 3) Uncover the business process automation and streamlining goals you want to achieve.
- 4) Show high-level Business Central features and functionalities that can address your challenges.
- 5) Provide high-level implementation roadmap and licensing costs.

Deliverables

- 1) Identify which modules and enhancements would benefit your company most from Business Central.
- 2) Present our findings and recommendation to management.
- 3) A high-level implementation roadmap and strategy and preliminary cost estimate on licensing, implementation, and support.
